#### Podaci o kolegiju:

**Medical English III** is a compulsory course in the third year of the study of Medicine in English. It includes 20 hours of seminars (**1 ECTS**).

**The aim** of the course is to assist the students in improving their communicative competence and developing academic writing skills. Active participation in classes, completion of written assignments, and preparation of a seminar paper will contribute to improving language fluency and writing skills and developing the ability to find, summarize, write, and present data and information.

**Course content:** Critical reading of medical texts with accompanying reading comprehension exercises at an advanced level, which will serve as a starting point for improving vocabulary relevant to the development of communication competence and key grammatical structures and spelling specificities of American and British English; individual work; pair work. Students' progress is continuously monitored through short quizzes and a final test. Students will receive constructive individual and group feedback on their progress. The course is considered passed after completing all written assignments (no later than the final seminar in week 10), the student participated in at least 70% of classes, and the final test has been passed.

#### Learning outcomes:

- · understand professional and scientific texts, identify key ideas and specific information
- distinguish and apply different language registers (formal/informal expression)
- · recognize grammatical and lexical structures typical of medical language in speech and writing
- spot grammatically and orthographically incorrect parts of sentences and be able to offer the correct solution
- · apply the rules of British and American spelling
- apply grammatical and lexical structures typical of medical language in writing

#### Course structure:

The course is organized through 20 hours of seminars, distributed continuously for 10 weeks. It is based on students' active participation in the seminars, written assignments, and the final test.

#### Popis obvezne ispitne literature:

Handouts available on Merlin.

Dorland's Illustrated Medical Dictionary, W.B. Saunders Company
Merriam-Webster online dictionary

#### Popis dopunske literature:

Chabner, D.-E. 2017. The Language of Medicine. St. Louis, Missouri: Elsevier. Books, e-books, articles, Internet pages, and other sources relevant to the topic of the oral presentation and written assignments.

#### Nastavni plan:

#### Obveze studenata:

Students must regularly attend seminars (minimum 70%), actively participate in classes, submit all written assignments on time, and pass the final test. If a student cannot complete a particular assignment by the agreed deadline and/or take the final test for justified reasons (e.g., in case of illness), they must inform the instructor at least 1 day in advance.

# Ispit (način polaganja ispita, opis pisanog/usmenog/praktičnog dijela ispita, način bodovanja, kriterij ocjenjivanja):

The course ends with a test on a pass/fail basis, which is taken on the last day of the course. After completing all course requirements and participating in at least 70% of seminars, the students will receive a passing grade.

The test is considered passed when at least 50% of the total number of points is obtained.

#### Ostale napomene (vezane uz kolegij) važne za studente:

ISPITNI TERMINI (završni ispit):

All updates, weekly class materials, and test results will be available to students on the Merlin platform. In order to promote academic integrity, all written work will be checked in the Turnitin plagiarism system and the Al Content Detector software to check for Al-generated content.
