| Godina studija: | 4 |
| ECTS: | 1.5 |
| Stimulativni ECTS: | 0 (0.00%) |
| Strani jezik: | Ne |

Podaci o kolegiju:

To consolidate the knowledge of anatomy and neuroanatomy and their relation to clinical application, also to upgrade the student knowledge of specific anatomical regions and / or organ systems needed for clinical examination.

Popis obvezne ispitne literature:

1. Moore KL., Dalley AF. Clinically oriented anatomy, fifth edition. Lippincott Williams & Wilkins
2. **Netter FH. Atlas of human anatomy, fifth edition. Saunders Elsevier, 2011.**

Popis dopunske literature:

1. Drake RL., Vogl AW., Mitchell AWM. Gray's anatomy for students, third edition. Churchill Livingstone Elsevier, 2015.

Nastavni plan:

Obveze studenata:

Active attendance at lectures and completion of tasks.

Ispit (način polaganja ispita, opis pisanog/usmenog/praktičnog dijela ispita, način bodovanja, kriterij ocjenjivanja):

Students are continually evaluated during the course and can collect a maximum of 100 grade points (70 during classes and 30 on the final exam).

The course consists of 5 hours of lectures and 20 hours of seminars (max. 60 points). Students will present orally one topic and collect 30 points, the same topic they will submit in written form which will be valued also with 30 points. Attendance on classes will be valued 10 points. The student must collect at least 40 points to earn the right to access the final exam.

Final exam is in a form of written test with maximum of 30 point. Grade points achieved on the exam are combined with the points achieved in class and form the final grade.
