Course information:

Kod za MS Teams: 9676k6r

Izborni predmet Prekanceroze u dojci ima ulogu upoznati studente s koracima u razvoju neoplastičnih promjena u dojci, fenotipskim i genotipskim sličnostima prekanceroznih lezija, razlici između rizičnih i prekursorskih lezija te histološkim, citološkim i radiološkim karakteristikama ovih lezija. Također će se upoznati s kliničkim postupcima kod ovakvih lezija, uključujući kirurški zahvat.
