

Medicinski fakultet u Rijeci

IZVEDBENI NASTAVNI PLAN 2025/2026

Za kolegij

Brain and Mind: Foundations of Neurophilosophy

Studij: Medical Studies in English (R) (izborni)
Sveučilišni integrirani prijediplomski i diplomski studij

Katedra: Katedra za društvene i humanističke znanosti u medicini

Nositelj kolegija: izv. prof. dr. sc. Horvat Saša

Godina studija: 2 ECTS: 1.5

Stimulativni ECTS: 0 (0.00%)

Strani jezik: **Ne**

Podaci o kolegiju:

Introduce students to the foundations of neurophilosophy - a new scientific discipline that integrates the knowledge of philosophy and neuroscience, in order to better understand the relationship of mind, brain, body and environment.

Popis obvezne ispitne literature:

Presentations for the lectures

Nastavni plan:

Predavanja popis (s naslovima i pojašnjenjem):

Introduction to Philosophy

Students will be able to describe the goals of individual philosophical disciplines: Anthropology; Philosophy of Technology; Philosophy of Science.

Students will be able to identify the main representatives of the philosophy of science.

Neuroscience - Philosophical Perspective

Students will be able to explain the basics of the division of sciences and the disciplines encompassed by neuroscience.

Students will be able to illustrate the main problems of interdisciplinarity using the example of neuroscience.

Seminari popis (s naslovima i pojašnjenjem):

Philosophy of Neuroscience and Neurophilosophy

Students will be able to explain the fundamentals of the methods and goals of the philosophy of neuroscience.

Students will be able to explain the fundamentals of the methods and goals of neurophilosophy.

Neurophilosophy - Main Representatives

Students will be able to name the main representatives in the field of neurophilosophy.

Students will be able to explain the fundamental ideas of the main representatives in the field of neurophilosophy.

Main Themes of Neurophilosophy - Self, Emotions and Consciousness

Students will be able to explain the basics of the topic related to neurophilosophy and self.

Students will be able to explain the basics of the topic related to neurophilosophy and consciousness.

Students will be able to explain the basics of the topic related to neurophilosophy and emotions.

Presentations of students' essays on selected topics in neurophilosophy

Students present and critically analyze a selected topic in neurophilosophy.

Obveze studenata:

Regular attendance, written seminar paper and final written examination.

Ispit (način polaganja ispita, opis pisanog/usmenog/praktičnog dijela ispita, način bodovanja, kriterij ocjenjivanja):

Assessment is carried out in accordance with the Rules of Assessment of the Faculty of Medicine, University of Rijeka: course attendance 54 (%) - number of attendances; written seminar paper 16 (%) - formal design, content, originality, literature used; final written exam 30 (%) - factual knowledge, understanding.

Ostale napomene (vezane uz kolegij) važne za studente:

_

SATNICA IZVOĐENJA NASTAVE 2025/2026

Brain and Mind: Foundations of Neurophilosophy

Predavanja	Seminari
(mjesto i vrijeme / grupa)	(mjesto i vrijeme / grupa)

Popis predavanja, seminara i vježbi:

PREDAVANJA (TE	MA)	Broj sati	Mjesto održavanja
Introduction to Philosophy		3	
Neuroscience - Philosophical Perspective		2	

SEMINARI (TEMA)	Broj sati	Mjesto održavanja
Philosophy of Neuroscience and Neurophilosophy	4	
Neurophilosophy - Main Representatives	4	
Main Themes of Neurophilosophy - Self, Emotions and Consciousness	8	
Presentations of students' essays on selected topics in neurophilosophy	4	

ISPITNI TERMINI (završni ispit):
